Available on 21" deep base units with doors.

LOCKS

Two styles of locks are available on any 21" and 14" deep base unit.

- 44 Decorative Cabinet Lock
Decorative key and keyhole plate
- 45 Cylinder Lock
May be keyed to match other items ordered.

FINISHED TOP SURFACES

A finished top surface is required whenever a base unit is used alone, a 209 or 209 1/2 Drawer Bridge is ordered, or a shallow (14") top is used with a deep (21") base.

20" WIDE TOP

- 33 1/2 Installs on 14" deep base unit
- 34 1/2 Installs on 21" deep base unit

34" WIDE TOP

- 33 Installs on 14" deep base unit
- 34 Installs on 21" deep base unit

68" WIDE TOP

- 35 Installs on two 14" deep base units
- 36 Installs on two 21" deep base units

102" WIDE TOP

- 37 Installs on three 14" deep base units
- 38 Installs on three 21" deep base units

Note: When used between a top and base unit the overall height is increased. In order for other units to match, a finished top surface must be installed on each base unit and a special adapter, 56, must be installed on the bottom of each 217 Corner/Tie-in Unit.

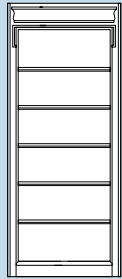

56 Special Height Adapter

Use with a 217 Corner/Tie-in Cabinet to raise height when a finished top surface is placed between an adjoining top and base.

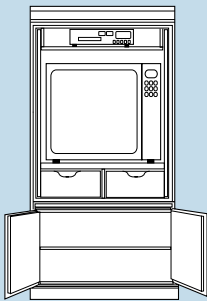

200 wall system

200 WALL SYSTEM WITH HOME THEATER OPTION

left to right: 217 Corner / Tie-in Cabinet, 216 Top with 218 Wood Style Doors, 214 Drawer Base, 208-100 Home Theater Bridge (56" wide custom), 208-300 Home Theater Base (56" wide custom), 216 Top with 218 Wood Style Doors, 214 Drawer Base, 217 Corner / Tie-in Cabinet. Old Tavern Finish shown.

HOME THEATER UNITS — CUSTOMIZED OPTIONS

The 208-300 / 208-400 Home Theater Bases and 208-100 Home Theater Bridge are available in **CUSTOMIZED WIDTHS FROM 50" TO 70"**. The number of base units and filler panels required will depend upon the width of the Home Theater Unit ordered. It will be necessary to contact the factory for specific information.

208-100 HOME THEATER LIGHT BRIDGE

- recessed rheostat lighting
- bookshelf/VCR storage
- 1 3/4" access hole for wires bored in shelf

Width and height of the overall unit will vary depending on size of TV.

As a standard, the factory will make overall width 2" wider than TV and overall height will be adjusted to allow 1" of clearance for TV to slide into. May be used with most of the 200 Wall System components.

When purchased with 21" deep units there will be a 7" space between the wall and the back of the 208-100 Home Theater Light Bridge for heat dissipation.

208-300 HOME THEATER BASE

14D 28 3/4 H Width will vary depending on overall size of TV. Consists of Base Units, Filler Panels and Finished Top Surface.

208-400 HOME THEATER BASE

21D 28 3/4 H Width will vary depending on overall size of TV. Consists of Base Units, Filler Panels and Finished Top Surface.
